PROFILE

Graphic designer with 4+ years in e-commerce at Vani Ecommerce, focused on product design, Facebook & Google ad creatives, website banners and mockups for US/EU markets. My edge: a clear aesthetic eye, AI used only where it adds value, and Photoshop automation that speeds up production without lowering quality. Now looking for a full-time role with an e-commerce team in Ho Chi Minh City.

EXPERIENCE

Senior Graphic Designer — Aug 2022 - Present

Vani Ecommerce · E-commerce Design · Full-time · Ho Chi Minh City

- Designed **5,000+ print products (POD)** for Anime, Racing, Sport and Music niches across apparel, hats, mugs, rugs, home & living, banners and email covers.
- Created **Facebook Ads and Google Ads creatives**, website banners and email headers for sales campaigns, keeping one consistent look from product to ad.
- Built Photoshop Actions (.atn) and scripts (.jsx) that automate repetitive work: 2D/3D mockups, 300 DPI print exports and SKU file naming. **Cut production time by ~40%** and file-naming errors by 99%; now used by the whole team.
- Applied AI (Adobe Firefly, ChatGPT Image, Gemini, Claude, AI Agents) to ideation and ad visuals, then hand-finished every piece. **3× faster output** that stays original and copyright-safe.
- Ran print QC for apparel, POSM and merchandise (CMYK/RGB 300 DPI, halftone for DTG & all-over print). **Print-defect returns kept below 0.4%**.
- Delivered 15+ Klaviyo email templates with a **28% average open rate**, above the 21% industry benchmark; supported brand identity kits (logo, palette, typography).
